Exact-checkpoint CPU replay: shared screening misses

case089
Image + reference-derived prompt

Released reference (green)

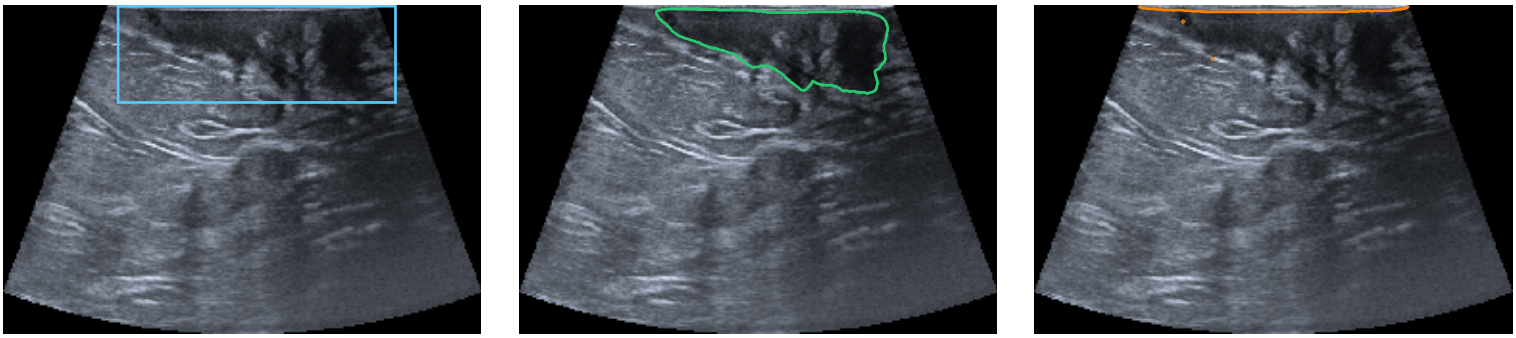

Actual CPU prediction (orange)
Dice 0.3191; A 0.1041; B 0.0412

case175
Image + reference-derived prompt

Released reference (green)

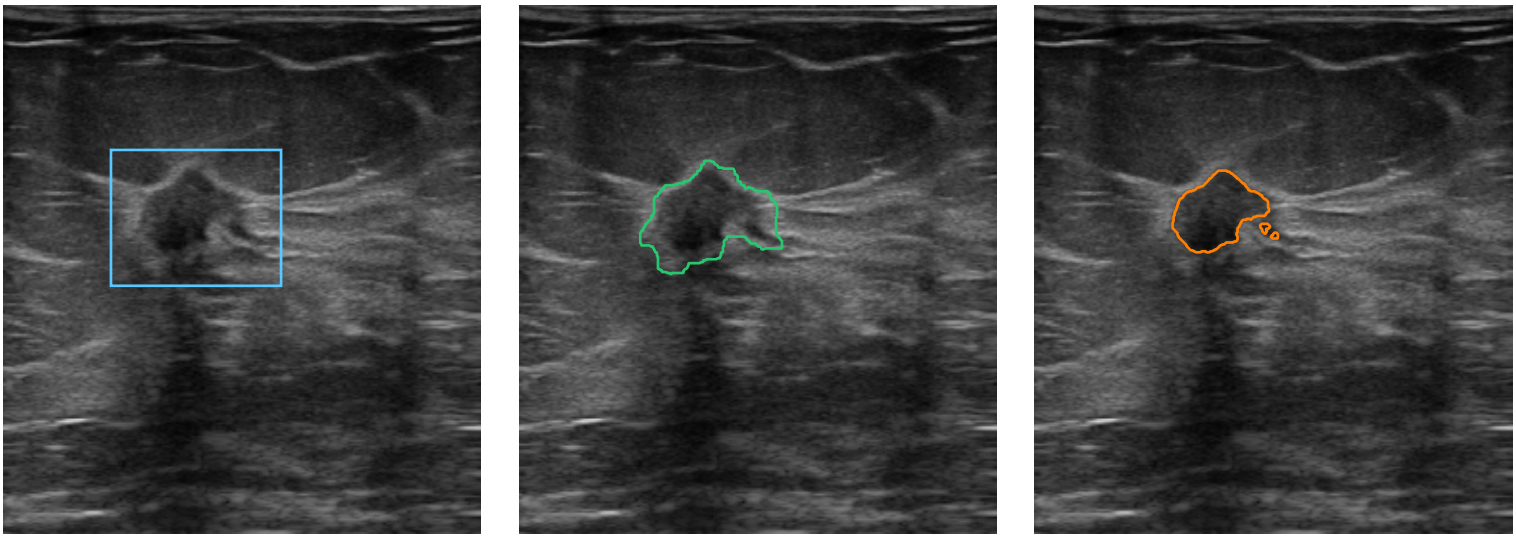

Actual CPU prediction (orange)
Dice 0.0293; A 0.1149; B 0.0200

case238
Image + reference-derived prompt

Released reference (green)

Actual CPU prediction (orange)
Dice 0.6813; A 0.0389; B 0.0057

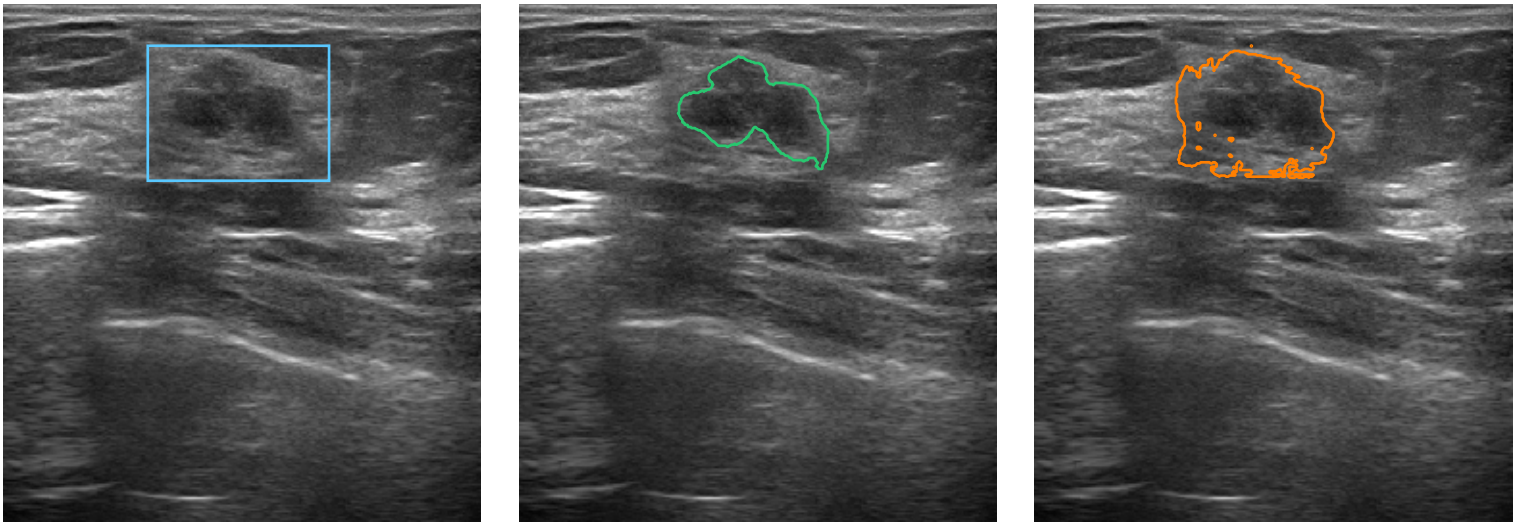

SAM ViT-B, frozen checkpoint/source, float32. CPU rerun masks; not original archived CUDA arrays.
All six review decisions and low-quality labels match the archive. Original scores are preserved.

Exact-checkpoint CPU replay: additional cases detected by B

case024
Image + reference-derived prompt

Released reference (green)

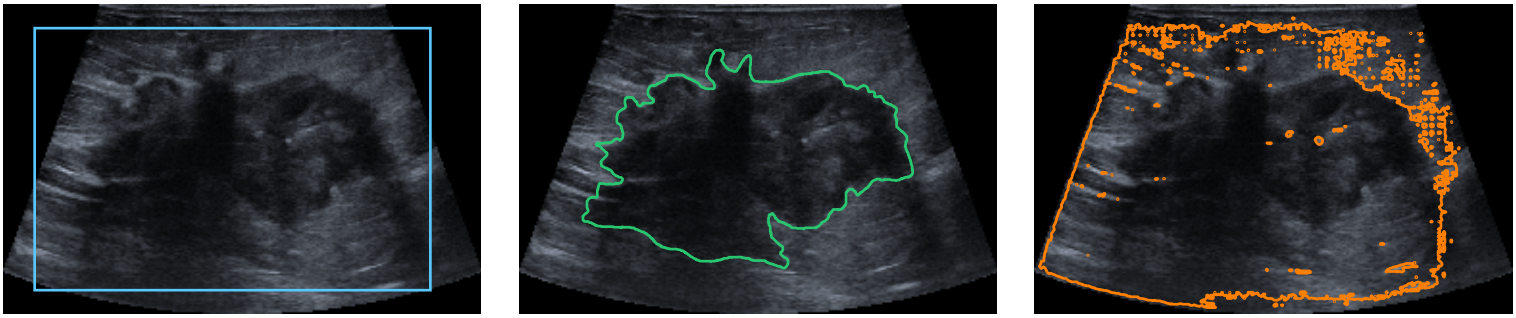

Actual CPU prediction (orange)
Dice 0.6851; A 0.0545; B 0.1101

case105
Image + reference-derived prompt

Released reference (green)

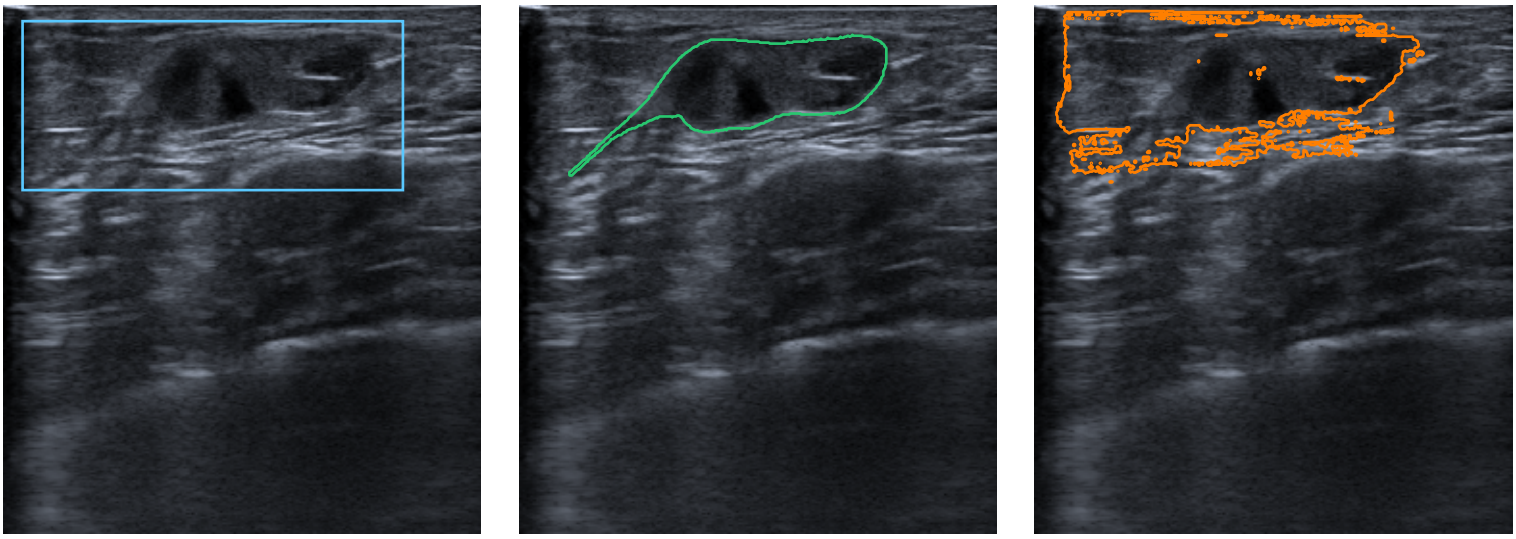

Actual CPU prediction (orange)
Dice 0.6546; A 0.1025; B 0.2600

case222
Image + reference-derived prompt

Released reference (green)

Actual CPU prediction (orange)
Dice 0.5785; A 0.1270; B 0.2017

SAM ViT-B, frozen checkpoint/source, float32. CPU rerun masks; not original archived CUDA arrays.
All six review decisions and low-quality labels match the archive. Original scores are preserved.
